Executive Director

### Contractors Board Announces New On-line License Renewals and New CAVU License System. On-line License Renewals Begin November, 2004!

A number of regulatory licensing boards, commissions, and agencies in Louisiana have recognized the need to enhance overall operations and are re-engineering business processes using proven license management application software as the foundation for their enhancements. Your State Licensing Board for Contractors has participated in a five (5) agency pilot procurement program in coordination with the State Purchasing Office and the State Office of Electronic Services to locate and contract with a vendor to secure standards-based, robust, scalable, commercial, off-the-shelf regulatory license management application software and services.

The selected vendor's product is one of the leading licensing and enforcement solutions available to state government boards and agencies. Specifically, the CAVU eLicense system has been implemented for regulatory licensing and enforcement in the states of North Carolina, South Carolina, Connecticut, Illinois and Ohio, and CAVU has specific experience with boards regulating contractors, alcohol and tobacco, real estate occupations, medical professionals, optometrists, and many other professions.

The CAVU system provides a completely browser-based, integrated software solution for the automation of examination, certification, licensing, and enforcement processes using technology that will meet the needs and goals of the State Licensing Board for Contractors. CAVU's solutions will help us offer contractors and Louisiana citizens the most up-to-date services while enhancing efficiency and reducing costs.

***This communication informs all Louisiana licensed contractors that the State Licensing Board for Contractors will offer e-commerce renewal application processing effective November, 2004. This will allow on-line renewals involving credit card and electronic check payments over the internet.***

As in the past, renewal application forms will be mailed to all licensed contractors in order to accommodate those firms or individuals who do not yet have computer capabilities including internet access. However, our goal is to fully automate the renewal process in the near future.

Please visit our website at **[www.lslbc.louisiana.gov](http://www.lslbc.louisiana.gov)** for up-coming announcements on our implementation progress.

## Louisiana One Call Bulletin ... Pipeline Damage Prevention Notice To Louisiana

To prevent damage to underground natural gas and other hazardous material pipelines located in Louisiana -

**CALL BEFORE YOU DIG**, wait 48 hours for the site to be marked, observe the marks and dig with care.

**CALL LOUISIANA ONE CALL AT 1-800-272-3020 (TOLL FREE) 48 HOURS IN ADVANCE**, excluding weekends and holidays, before digging is scheduled to begin.

### HAVE THE FOLLOWING INFORMATION AVAILABLE:

- Name and telephone number of the excavator and name and telephone number of the company.
- Date and time the work is scheduled to begin.
- Specific location address or description of the work site.
- Nearest intersecting roadway to the work site.
- Distance and direction of the work site from the nearest intersection.
- Advise the Louisiana One Call operator if explosives will be used.

Maintain the locate ticket number provided by the Louisiana One Call operator. It is your proof of the call and you may be requested, by an enforcement agency, to provide this ticket number at the job site.

If digging activity comes within eighteen inches of a utility line or pipeline, exercise extreme caution. Hand digging is recommended to expose the buried line.

Markings for underground utilities are considered valid as long as they are visible up to ten calendar days from the "mark by" time. "Mark by" time is provided by the Louisiana One Call operator and excludes holidays and weekends. For larger projects, call in only the work that can be accomplished within a ten day period.

If damage occurs, notify the utility operator or pipeline company directly.

If there is an emergency situation (immediate danger to life, health or property and requires immediate attention), take steps to safeguard health and property.

Wherever possible, use white paint, stakes or flags in order to designate the area of proposed excavation.

Remember, not all utilities are members of Louisiana One Call; you should call non-member utility operators directly.

Civil Penalties range up to \$25,000 for violations to the "Dig" law.

**PLEASE REMEMBER** - To "Dig Safely," call before you dig, wait 48 hours for the site to be marked, observe the marks, and dig with care.

Louisiana One Call can be reached from your cell phone by dialing #DIG
